

In 2017, we had the good fortune to partner with clients on some of their most exciting and challenging mergers and acquisitions. Our work spanned the range of deal size, structure and complexity, from sales of venture capital-backed companies to investments by private equity funds to multi-billion dollar cross-border transactions, and included deals in the life sciences, technology, manufacturing, financial services and natural resources industries, among others.

We are honored to have been entrusted with this work by clients such as the one who reported the following about Foley Hoag to Chambers USA: *"It's worth noting the extraordinary client service culture they have. The most senior partners at the firm are available 24/7 if the job requires it, and that's something you don't see very often. It's something that makes them an extraordinary firm."*

We are proud to highlight some of our clients' 2017 M&A transactions, and look forward to supporting their strategic growth in 2018.
