

# Private Equity Transactions

## A Middle Market Leader

Our Private Equity clients feature the full spectrum of market participants: sponsors, portfolio companies, co-investors, institutional investors, management and buyers and sellers in transactions with private equity firms.

**We have earned top recognition for our work in M&A and general business law, including as:**

- One of a handful of Boston law firms ranked in Tier 1 for M&A by IFLR1000 United States
- Two time “Regional Powerhouse” by Law360

### What does that mean for our clients?

- More direct contact with experienced senior lawyers who actively participate on deal teams.
- Leaner, efficient teams able to adeptly execute transactions.
- Focus on and expertise in middle market private equity.

Foley Hoag combines deep market knowledge and superior client service to obtain optimal deal terms for our clients. In addition to our M&A expertise, our private equity clients benefit from our tax, debt finance, employment, intellectual property, fund formation and related practice groups to address complicated issues seamlessly and facilitate transactions quickly.

We excel in applying our extensive industry and operational knowledge to deal strategy, including in technology, healthcare, life sciences, real assets, consumer and retail, investment management, energy and cleantech, professional services, education and industrial and manufacturing.

*“Incredibly responsive, they work very effectively and efficiently... they’re also much in tune with the business side of things.”*

*“They execute deals masterfully and communicate seamlessly with one another.”*

**Chambers USA**
