

In 2021, we were privileged to work with our clients on some of their most exciting and challenging M&A transactions. We guided clients on complex transactions involving the full spectrum of deal sizes, and structures and complexity, from sales of venture capital-backed companies to investments by private equity funds to

SPACs, deSPACs and multi-billion dollar transactions. Our work included deals in the life sciences, technology, manufacturing, healthcare, chemicals, professional services and natural resources industries, among others.

**We are proud to highlight some of our clients' 2021 M&A transactions, and look forward to supporting their strategic transactions in 2022.**
